Per rendere il pagamento delle fatture più rapido e comodo, mettiamo a disposizione il pagamento digitale tramite QR Code SumUp. È sufficiente inquadrare il codice con la fotocamera dello smartphone per accedere a una pagina di pagamento web sicura, senza dover installare alcuna applicazione.

Il cliente può completare il pagamento inserendo i dati della propria carta di credito o debito. Il pagamento viene confermato in tempo reale e registrato immediatamente.

L'utilizzo della carta di credito consente inoltre di beneficiare della naturale dilazione dell'addebito prevista dal proprio circuito bancario, offrendo maggiore flessibilità nella gestione dei pagamenti.

Il sistema è semplice, sicuro e pensato per velocizzare le operazioni sia per il cliente sia per il commerciante.
